ber 1895, with which note...
by the Chief Engineer a...
the Assistant Chief Engi...
were forwarded to the Deput...
Commissioner and he was ...
asked to give his attentio...
to the following points:-

(1) to prevent and se...
back encroachments on ...
the tank bund by holder...
of gardens immediately be...
the tank; to fill in all ex...
Excavations which the Chief
Engineer may regard as dist...

block } to the proper main-
of the Tank and its

[redacted] arrange with the own-
of land under the tank
to allow them to hold the
(without any right to
ation from the Tank)
reduced rates of Assessment,
to buy the land outright;
in the former case a liberal
margin along the toe of the
bund to be reserved to Govern-
ment.

(3) to attend to the Sanitary
condition of the catchment
which was unfavorably
reported on by the Assistant
Chief Engineer.

As regards (1) it is reported
that there have been no en-
croachments whatever, that
the owners of vegetable gardens
immediately below the Tank
had, in accordance with

[redacted] the Superintendent

Temperature
one or two

A new crop, been repairing
their drainage trenches (½ ft deep
and mending the roads
and the Assistant Chief
Engineer must have been the
lands in that condition;
that even these small trenches
have not been filled up;
that no pits or new wells
have been dug; and that
the Assistant Engineer in
charge of the Kanyakata
Tankwork has been requested
to demarcate the marginland
along the near side of the road
(33 ft in width) and fix upright
stones at intervals which
is being done.

As regards (2) it is reported
that the holders of lands under
the tank have been informed
that the rent and garden rates
on their lands will be replaced
by dry rates of assessment

and

and that if they do not wish to hold on such terms, the lands will be bought up by Government. It is reported that the ryots have promised to think over the matter and intimate their wish.

As regards (3) it is reported that there was some delay in the ryots removing the contents of some manure pits to their fields, but that the removal has since been effected; that 4 watchmen have been appointed to prevent cattle straying; and that Policemen and Shekdars have been told off to patrol over these parts.

With regard to the 5 villages which have been removed from their present sites the Deputy Commissioner reports that for Harohalli, Uyyile Gondlalli and Dasenhalli, sites have been

been selected which drain
to the Arkavati and below the
Hesaraghatta tank; that wells
have been sunk and sites
marked and made over and
building materials are being
collected. Lands for these
villages for cultivation have
been selected beyond the free
catchment area and within
the subsidiary catchment
area of Hesaraghatta and
the Chief Engineer has, it is
reported, no objection to
a course. ——————

——— For the remaining
villages of Inchihalli and
Chikkenanpura, sites as well
as lands for cultivation
have, it is reported, been
selected near Karisonnen-
halli, much above Kabbal
and Byata.

The Deputy Com

recommends some further help being given in the shape of grants of wood and bamboos on favorable rates of seigniage to some of the villagers in building their houses in the new sites. Some of them, it is said, have spent away the compensation paid to them and find the old materials insufficient owing to depreciation, for new houses of equal dimensions. It is said that the Assistant Commissioner will examine the case of each individual and fix the quantity to be allowed. For grants it must be made as a special case as in the case of houses destroyed by fire, but particulars as to the number of persons and the quantity of wood to be given are, it is submitted, required before sanction can be ~~given~~ granted and the application has to come through the Conservator of Forests.

The Deputy Commissioner requests that a sum of Rs. 2000 be placed at his disposal for starting works, constructing village chaukis &c in the new villages to be formed.

I Sanjaire Deputy Commissioner's No. 934 dated 25th March '96.

The Deputy Commissioner submits for sanction an estimate for Rs. 249 for planting a ring of 50 yards around the water spread of the Hiranyakhatta Lake, making a total area of about 60 acres. It is said that the planting in question has been ordered by the Durbar. No estimate has been prepared by the District Forest Officer, Sanjaire.

This is now in the new village to be formed.

To be done when Lake by the Municipality for recharge Compensation Note as now ordered 30-3-96

Deputy Commissioner report

(9) the reduction of the rates
of assessment to be made
in regard to the lands under
the Hessarghatta Tank in
Consequence of the withdrawal
of irrigation from the Tank
The lands are in the village
of Hessarghatta and Kodigi
Tirumalapura. The area
and assessment thereof
are as follows:—

In Hessarghatta

		Area	Assessment
	Wet	189-34	720-0-0
	Garden	127-28	828-4-0
In Kodigi Tirumalapura	Wet	47-9	281-4-0
	Garden	3-10	17-0-0
		317-36	1846-4-0

In the Hessarghatta village
the wet rates range from
Rs 2-14-0 to Rs. 6-10-0 and
the garden rates from Rs. 3-0-0
to Rs 7-0-0. In the Kodigi
Tirumalapura village the wet
rates range from Rs 3-4-0
to Rs. 6-2-0 and those on
the

the garden lands from Rs 2-8-0 to Rs. 6-2-0. The Deputy Commissioner says that although no water will be supplied direct from the Tank, still the lands under the Tank will benefit by their proximity to it and therefore proposes that instead of assessing them at dry rates they may be assessed at Bengái rates ie. one half of the wet and garden rates now imposed on them.

(10)

V. Bangalore Deputy Commissioner's letter No. 24 Dated 6th July 1896.

In this letter the Deputy Commissioner says that it has been decided that all the lands draining directly into the Hesarghatta Tank should be acquired and Conserved, and he forwards

a

III. Bangalore Deputy Commissioner's No. 739 dated 21st March 1896.

This relates to the acquisition of 13 acres and 39 guntas of land in the Goodadahalli Village, Nelamangala Taluk, as site for the new village of Basavahalli. Mr. B. G. Narasimhaiyangar's estimate for 13 acres and 23 guntas of land for the above purpose was Rs. 213-3-0 and this was sanctioned by Government in Proceedings No. 9978-80 / R-1023 dated 22nd December 1893. The Deputy Commissioner now seems to have granted Rs. 424-5-1 for the lands and asks for sanction for the difference of Rs. 211-5-1. The draft, such as it is, is submitted herewith.

IV. Bangalore Deputy Commissioner's No. 917 dated 31st March 1896.

In this letter the Deputy

a declaration for the acquisition of the lands and request sanction for their acquisition.

The extent of the lands sought to be acquired is 2404 acres and 36 guntas and the total assessment Rs. 3538-9-7. These do not include the village sites with buildings thereon of the villages of Makol, Sugar and Kankali which also will have to be acquired.

The acquisition of the lands is likely to cost much and may perhaps affect the sites selected for the new villages.

Drafts are put up.

Dear Mr. Rabeninmeyer

We may send with your letter dated 26th March last does not show which plot land therein we occupied land & which yet vacant. For this information, we have to refer to the list which accompanied the map. The Names of map corresponded with this. We want this information to be given in the map itself. We want all the canes not to be coloured in the map, the color for occupied one being different from that for unoccupied ones. To enable you to have this done, I herewith send back your letter quoted above with all its enclosures. Please return this as early as possible with the required done

With kind regards
Yours very sincerely

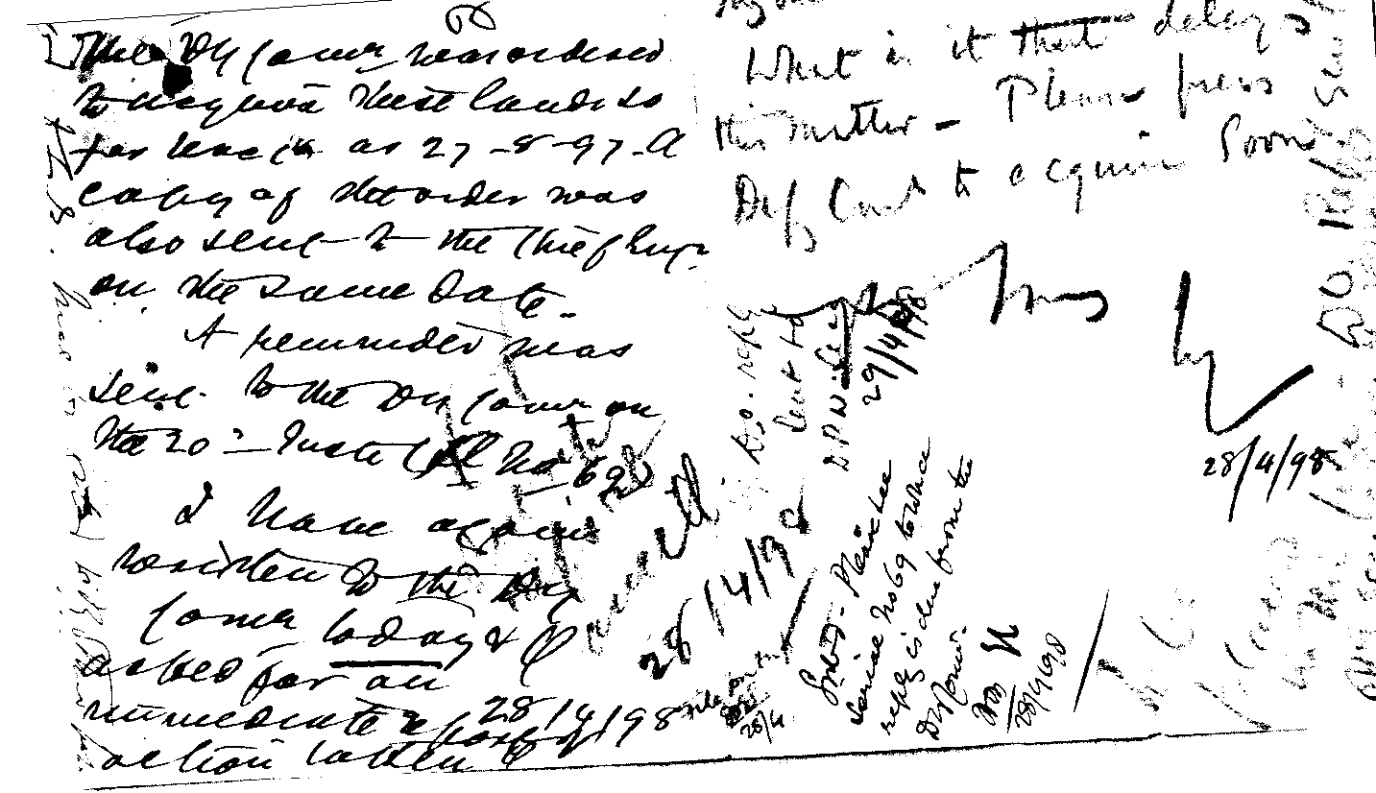
"the additional lands in the
"catchment area of the
"Chamrajendra reservoir



(11) 29/4/98

Dear Mr Narasimhayya,

Please refer to yr. Pro: No. 2874-76 dated 27th August 1897, and reminder No. 10014 dated 20.4.98 in re the acquisition of lands in the Catchment of the Neeva Shetta reservoir. No reply has yet been received from your Office, The Chief Engineer and the Senior Surgeon are going to the reservoir to-morrow. The Devasthanam cannot understand why, notwithstanding the issue of orders so far back as August last the villages in question have not been cleared out of the Catchment as yet. Cultivation should be prevented and the removal and acquisition effected

above. Please let me know what delays the matter and when Govt may expect the report called for. You will observe that the matter is urgent and should receive immediate attention.

A line per bearer to acknowledge the matter will oblige

District in place of the
Resident Commissioner. You
may therefore make
the arrangements for
& submit an official
report for the final

Note.

The Residency letter No 232
of the 7th Instant was receiv
on the evening of the 11th Inst
I at once wrote to the Dy
Comr asking him to let
me know the progress
made and to direct Mr
Narasimhaiyar to see me
and give me all necessary
information.

Mr N. Iyengar accordingly
saw me this morning. He
said he had submitted a
report to the Dy Comr
last night. He read to
me the draft of that
report. It was to the
effect that cultivation
had been started, that
the acquisition of the
lands of one of the
villages had been
completed and that
negotiations with the
ryots of the other villages
were in progress. This
did not satisfy me
& I therefore impressed
upon him the urgency
and importance of

the matter and asked him
to go back at once to
the Villages in question, complete the work without further
& send me a report
by tomorrow evening
re the following matters
(1) that the lands have all
been duly apportioned
(2) that the names have
on the lands have all
been removed
(3) that the inhabitants
of all the four Villages
have left the cultivated.

Owing to Mr Martin
- mungan having to
Jaffna, Mr Kulasingam
Vadivelu took the work
yesterday. I told the former
that he might visit this
before he left for Jaffna for
2 or 3 days. He then back
to Kopayapulla immediately.
He has promised to
carry out the above
instructions and to
submit the report required
the time fixed.

C.

12/5/98.
8 am.

791

12-5-98

My dear Sir

Herewith I send for your personal and kind perusal an urgent letter received last night from the Residency. I sent for Mr. Ramaiyangar and asked him what progress the acquisition of the Harijan settlement had made. He replied that the lands of all the villages had been acquired but negotiations were in progress with the ryots of the villages. As a reply to this effect would by no means satisfy the Resident who has written rather strongly on the subject, I have asked Mr. Ramaiyangar to go back to Hosapalla at once complete the evacuation of the villages without further

for the delay & send me a report according by Tomorrow evening. He has promised to carry out these instructions. This will necessitate his remaining here for 2 or 3 days more, but I think this cannot be helped. I hope you will, in view of the importance & urgency of the matter, kindly excuse the liberty I have taken in instructing him as above in anticipation of your approval. It is a pity the local authorities delayed the matter so long.

Yours very sincerely
(Sd.) C.

Sir

I am directed to forward for your information Extracts from the Dewan's & Col Bowen's Notes of 7th & 9th Instant regarding occupied lands under the Hessaraghatta tank.

If the local officials did their ordinary duty the encroachments & dangerous excavations which Col. Bowen brings to notice would never have been attempted & I am to request you to take immediate steps to prevent them in future and to see that all encroachments and to have filled in forthwith any excavations which, in the Opinion of the Chief Engr. & may Dewan regard as risky in any way. More important than even all this, is the need for Constant attention & Energetic action on the part of the local officials to ensure the proper maintenance of the Tank & its adjuncts.

Arrangements shd at once be entered into with occupants of the lands under the Tank, either to allow them to hold, without a right to any irrigation from the tank but on a reduced Rate of Assessment or to

buy their lands outright — In the former Case a liberal margin along the toe of the bund shd be reserved absolutely for the Govt — This margin shd be much broader than what is prescribed for irrigation Tanks, ~~The Dept Cont shd settle~~ the breadth in Communication with the Chief Engr.

required being settled by you.

I am to forward for your info. Copy of Asst Chief Engrs Note of 11th instant regarding the extremely ~~[illegible]~~ insanitary Condition of the Catchment. ~~and to direct that~~ The Govt: regret to find that this has been allowed and they would like to have ~~definite information~~ your explanation as early as possible. An Asst: Cont: was specially deputed for the duty Connected with the removal of these villages &c and it is evident that he has not been doing his duty and that he has not been Controlled ~~so~~ so as to prevent the apathy & gross inattention to Sanitary requirements now brought to notice — Under such circs I am to point out the desirability of your devoting your personal attention to this important matter without the loss of a single day.

Water-Works Bangalore

Encl.

Mysore P.W.D.

To the Dewan of Mysore for consideration

Since receipt of your memo of 7th yesterday morning, with Resident's letter proposing conditions and terms for share in the Cauvery Hatta water supply, I have been carefully studying the subject, and I have jotted down notes on the several points calling for criticism - which I now send forward as a first instalment. I shall continue to keep the subject present in my mind and will add later on any further remarks that may occur to me as worthy of discussion or comment.

The Resident's "conciliatory" scheme for Tank water might have been before it is certainly new now that we don't want the water. But suffering the British Government in which that sole "claim" was a lawful and legal one all along, then should have not submitted a bill for cost of maintenance during the last 5 years,

that is, a share in the proportion of water drawn off to "Miller" tanks to that sent down to Thammanhalli?

The "irrigation" rate referred to represented nearly the revenue which Government would derive from such assessment when dry lands were converted into wet by water from the enlarged tank. It takes no account of the enormously enhanced profits which the ryots of Mysore would reap from the improved lands. It is the Land in Station which will reap the benefits.

Yes, irrigation will now be stopped, but let it be understood not necessarily for ever. Because 5 years it may be found that water is stored even in the driest years for in excess of the requirements for in excess of the requirements of Bangalore. Then the question of irrigating from the tanks may be raised again.

We forego the contemplated irrigation which would yield a revenue of Rs. 16,000. The Land in Station should pay their share of that loss, but in case irrigation is determined on in the future, portion of their payment will be refundable to them.

In assessing their share of this loss we must take account of which would

would be the cost of the irrigation
Channels, sluices &c. This estimate
has not been worked out. It would
go of course towards a reduction
of this charge against them.

The agents holding gardens immediately
by below the tank ought to be brought
out. It has recently been brought to
my notice that they are deliberately
encroaching on our bund, and
are sinking deep wells close by which
certainly endanger the tank and in
a way drain it. This is a serious matter.

The whole question is a complicated
one and grave issues are involved. Any
not set aside "equal rights", or "equal terms"
"on half interest", and simply offer to guarantee
to give them — as for a guarantee can be
given in a case of water supply — a
million gallons a day at the end of our
duct, at the irrigation rate already offered
but calculated on half the irrigable land
which their joining in now precludes
from irrigation? The capitalizing
Sankey's tank, and restoration of the
Madigal Valley to be kept altogether
apart from the question.

The duct cost about Rs Chargeable
to them would only be the raising

of the Land, Share of Telephone wire,
of Railway Sidings: and Annual Charges
only, Share of Telegraphic Charges and
Railway Sidings Maintenance and
establishment.

(Signed) C. Bowen
Chief Engineer
9.12.95.

I shall be very glad if you will
let me have immediately a copy
for my use of Residency letter
(which is printed) and of your
memo now under reply.

Urgent

Private

Mysore P. W. D.

To The Secretary of State for orders.

Hessaraghatta Tank Catchment

I have just received this report from Mr. McIntosh who returned from Hessaraghatta this morning.

His description of the condition of the villages adjoining the tank and more especially the state of the borders along margin of the water which was brought up calls for urgent orders.

Apparently nothing is being done to get the people away from the villages that are to be removed and for which I believe compensation has been paid. Immediate action seems necessary and the grazing of cattle along the water margin should be entirely put a stop to at once. The aid of the Police might as well be called in — if only to frighten the villagers.

If the Doctors of the Civil and Military Station recently discover the state of the catchment - just above the water spread as now described, negotiations regarding the joint supply will entirely be disturbed, and an element of conflict - regarding conservancy will arise at the very outset.

(Signed) C. Bowen Col
Secy. P.W.D.

11.12.95.

For Office Note.

I yesterday inspected the Heccarghatta Lake, and then walked along the margin of the Lake's waterspread from Heccarghatta to Kakal Lake and back. I wish particularly to bring to your notice that the villages of (1) Gondihalli, (2) Chikkagondehalli, (3) Karahalli, (4) Meerihalli, (5) Bacharapalya, (6) Chikkanagur and (7) Dasenhalli, all situated close to the edge of the waterspread, and which were ordered to be removed to new sites some two years ago, are still just as they were, and, as far as I was able to learn, the villagers had no intention of moving. These villages and Byatarayanapura itself are a source of great pollution to the water supply in that

(1) The margin of the Lake in the vicinity of each is used as the latrine

(2) The manure pits and cesspools in each village are sinks of fatid matter as usual.

(3) The waste land between the actual water margin and the cultivations which we have fenced up for the

Sanitation of our Lands, is used by the whole of the cattle of these 8 or 9 villages and Kahal as grazing land for their cattle. This tract of waste is closer to the villages than the higher waste lands, and of course the people will not take the trouble to go further away; water being also convenient.

This margin of waste land all round the lands is covered with cattle droppings as in a cattle yard.

It is my opinion that these villages must at once be removed & the houses and refuse burnt. There will have to be a regular conservancy establishment at first, as the villages will always bring their cattle down to the lands.

Dy Commissioners Office

D. No: 595.

Bangalore District

Enc: 2.

Dated 28th December 189.

7-1-96.

To

The Revenue Secretary to the

Government of Mysore

Sir,

With reference to Government letter Camp No: 27-R dated 14th Instant regarding occupied lands under the Hessarghatta tank, I have the honor to forward herewith copy of 1st General Assistant Commissioner's letter dated 25th Idem and to state that I have seen the sites selected for Hardalli (3) Upper Gollahalli (2) and Dasenhalli (1) These drain to Arkavati lied below the Hessarghatta Tank. Progress is being made in suitably establishing these villages. Wells are sunk. Sites have been marked and made over and

materials are being collected for building and building operations will soon commence.

2. Lands for cultivation for these villages are selected beyond the free catchment area of Hessarghatta. I have consulted the Chief Engineer on this point and he sees no objection to such a course. The subsidiary catchment area is very vast and there are numerous villages within it. As they will not all be removed the new cultivation in such supplemental catchment cannot be open to any question.

3. For the remaining villages of Nedihalli and Chik Devenpur, sites, as well as lands for cultivation are selected near Karisonnenhalli, much above Kaikol and Byata.

4 Mr. Narasmiengar recommends

further helps to such of the Villagers whose cases are "extremely hard". Some of these have spent away the compensation paid to them and the old materials do not in most cases suffice for new houses of equal dimensions on account of deterioration of Materials. In consideration of the short time within which these Villagers have to build their new houses and of the pressure under which they build them, I think the rules for grant of timber and bamboos for Ryots published in the late Chief Commissioner's Notification No. 400/40 dated 12th July 1873, might be relaxed in the cases of these Ryots and that as a special case, the quantity of bamboos and timber actually required may be allowed on payment of favorable Seniorage. The Assistant Commissioner will examine the case

each individual and will fix the quantity to be allowed.

5. These villages which are newly to be built-are being planned with due regard to drainage, Conservancy, water supply &c. Wells are being sunk and Village Chavadies &c will have to be built also. I request that a Sum of two thousand Rupees may be placed at my disposal to meet these charges.

6. Mr. Narasimiengars report shows in detail what has been done and is being done and I do not repeat it, but will only add that I am fully alive to the urgency and importance of the subject and am paying the promptest attention to the execution of Government orders in the matter. Copy of my reply to Mr. Narasimengar

is also submitted.

I have the honor to be
Sir
Your Most Obedient Servant.

W. Lyall
for Dy Commissioner

them lands for cultivation
within a convenient distance
from the village or not. Within
a certain distance from this
site there are arable waste
lands belonging to Kukkanahalli
These drain towards Junbini
Kere tank near Dasenahalli,
which overflows into Hesara-
-ghatta. These lands will be
given away after the question
of making use for cultivation
purposes lands in subsidiary
drainage areas, is settled
by the Dy Commissioner and
Chief Engineer.

7. For Chickdevanpura &
Medehalli also, lands have
been selected in similar -
subsidiary drainage areas

8. In site selected for
Harohalli a well was sunk
and water was tapped at
a

depth of 5 [redacted] as it is too deep - another well is being sunk in a lower level retaining of course, the first one. In site selected for Dasenahally also a well is sinking.

9. Before concluding this report, I beg leave to state that if proper facilities in the shape of money, building materials &ca are furnished to the ryots in extremely bad cases, it will much facilitate the removal of all the villages long before the next rainy season sets in.

10. The Government letter under reply with its enclosures are herewith returned.

I have the honor to be
Sir
your most obt servant.
Sd. N. Narasimia Iyengar.

"Copy"
V Rajagopalan
for Secretary

No. 3/1 Encl.

Rlt Genl. Asstt Commr Office
Bangalore District.
Dated Bangalore 23rd
December 1895.

From

R. Ravindrayar Esqr
Rlt Genl Asstt Commr
Bangalore District.

To

The Deputy Commissioner
Bangalore District

Sir,

In compliance with your order dated 19th December 95, I beg to submit the following explanation with reference to the points raised in Revenue Secretary's letter to you, dated 14th Idem. —

1. With regard to the encroachments on Government lands under the Hesaraghatta Tank, alleged to have been made by ryots, I beg to state that the Chief Engineer has not been correctly informed as to the facts and I beg to submit that no encroachments have

have been made. All along the toe of the old bund, there has been a line of vegetable and betel gardens existing from a long time. It is customary with the Tigler cultivators of these gardens to put the whole garden in heaps, ~~from~~ ^trim after removing a crop and before sowing in seeds for raising a fresh one. In such occasions, the draining trenches which are only a foot & a half deep are repaired and ridges mended. When the Assistant Chief Engineer visited the place, the garden appears to have been in this condition. Beyond this, nothing seems to have been done. There have been no encroachments whatever.

A

As the Fault is yet in hands of the Public Works Department, I beg to point out that it would have been well had the Public Works Department officers, before they excavated the margin land along the rear line of the Fault land and fixed up right claims at proper intervals. If this had been done, the Executive Engineer would at once have seen that there was no encroachment. Even the above mentioned small trenches, have now been filled up.

2. No pits or wells have been excavated in the garden some time ago, when the old temple of Duggalamma was demolished, the pits had been, according to the custom, temporarily provided in water

water in a pit expressly dug in one of the garden till the new temple on the land was ready and the idol duly installed there. This pit has since been filled up. The garden holders have been strictly warned that they should, on no account, meddle with wells existing in their gardens from a long time - not even clear them of rubbish etc.

2. The Assistant Engineer in charge of the Veerarajatta Canal work has been requested to demarcate the margin land along the rear toe of the bund (30 ft in width) and fine upright stones at stated intervals. This is being done. Fifteen have been

been issued to holders, that they should not within (100) yards from the margin excavate any new wells, clear or deepen old ones and make any excavations. That said holders have also been informed that in consequence of this prohibition and the denial of water for irrigation from the Kennaghatta Fault, the garden and first assessment, now imposed on their lands would be removed, and any assessment raised, should they still choose to continue the holding and in case they did not like to hold the lands under these conditions they would be acquired from them by payment

payment of suitable compensation. Holders of wet lands, inferior to last, other than those above mentioned, have also been informed that their lands also would be dealt with in the same manner. The Egyptians promised to Finish over the matter and intimate their wish. The result of individual enquiries made, will hereafter be reported.

4. In regard to the extremely insanitary condition of the Settlement noticed by the Assistant Engineer, I beg to state that bordering the villages of Gondiakli, Karakli, Ascendaly, Chiftaemyra, and Initially, which are to be removed from their present site,

present site, there are measures
fits in which measures and
resolutions are collected. The
contents of, these fits had been
ordered to be removed and the
villagers had promised to
remove and give them for their
fields. In the meantime they
appear to have been fully
engaged in harvesting and
have hence neglected the
early fulfilment of their
promise. In some cases
myots were under the impression
that they would be allowed
to continue to be in possession
of lands not acquired from
them by the Government and
had postponed removing
the manure until the object
of

of carting it away to their fields at leisure. Strict orders have now been issued for the removal forthwith of the manure and the same has already been almost entirely removed. In the vicinity of the village there were a few cattle droppings. These have been swept and removed. Four watchmen have been appointed and sentry placed to watch that no cattle may stray on the margin land. Police men and Sheikdars, have also been told off to patrol over these lands and see that the watchmen do their duty properly.

5. Site for locating the villages to be transferred, had been selected by Mr. C.G. Srinivasa Iyengar. B.A. L. and was duly

by

by Government to inspect the
site and pronounce whether they
were fit. He pronounced a site
the site on a certain day but
did not, owing to some urgent
work near Mysore which called
him away. He has not yet come
and inspected a place though
requested by the Land
Court was fixed after the
completion and the Land
filing of the depty Commissioners
approval of site selected
for the relocation of two villages
viz: Karanji and Kaveripura
Some difficulty was experienced
with regard to selection of
land for locating the new
villages & the given date
for cultivation purposes
beyond the direct and

supplementary

supplementary drainage area of the tank and consequently sometimes lost. Generally a high ground between Kaddipalli Mattigadda and Lekkalavanka was selected. This portion of land slopes off towards Lavakottapuram tank which merges into the Kavali-Kandukur Road. Pipes and Kalvets for building & cultivation purposes can be provided for Narakalli and portion of Gondikalli. (Area Reddy of Gondikalli and his followers will object here). The people of Narakalli and Area Reddi have already removed their things to Kakolu, and after villages and erected temporary

Sheds

Lord as high steward to the Earl of Northampton - Mary the wife of the Earl Rodgers deceased in pregnancy of Lady required to remove his wife to any place in her distant condition. Same as Mary Rogers in Lincoln to stay and remove her, when required to have been confined. In such case Mary Rogers must be provided with the necessary Conciliatory measures. This is necessarily rather Contrary but I think it is in the main Right. I have in the case mentioned, altered the name

to remain. I have however adopted measures for the thorough conveyance of the villages.

The people of Gondi-kally are divided into three factions. They are therefore unwilling to remove in a body to another place and settle there. Time was therefore necessary to impress on them the necessity of their removal and bring them to agree to settle in one place. Labouring under a wrong impression that they would be left undisturbed in the enjoyment of their own land except those acquired by Government for the Kurnaghatta Canal, the villagers of Gondikally requested that they might be given lands in the vicinity of their land and possess one piece

Bangalore, 28th Decr: 1895

To,

The 1st Asst Commr

Bangalore District

Sir,

In reply to your letter of the 25th Instant I have the honor to state that you may select lands in the Subsidiary drainage for giving in exchange to the lands of (1) Harohalli (2) Gondehalli (upper) (3) Gondehalli (lower) (4) Dasenhalli and its hamlet Ramachendrapalya.

2. Medihalli and Chikkeram-pur will have to be located beyond the catchment-area near and above Kari Sannenhalli as proposed.

3. The Chief Engineer has been consulted and he sees no objection to the above arrangement.

4. I approve of your action

in allowing the Patel of Harohalli whose wife is confined in child bed and the four women in Gundehalli who are newly brought to bed after delivery to occupy their present houses till they are fit to move.

5. The villages should be completely demolished long before the next rains, so your endeavours to remove the villagers to their new homes, must be persistent and unrelaxed.

6. The conservancy Establishment sanctioned only be temporarily kept. I request you to submit an estimate for this, and for sinking wells and for other subsidiary expenditure which will have to be incurred in the establishment of new villages.

7 Copy of my letter to Government is forwarded herewith for your information.

Enclosure No. ~~two~~ .

Has the honor to forward herewith for Sanction of Government, an estimate of the probable cost for planting the margin of 50 yards around the water spread of the Nesarghatta Tank, making a total area of about 60 acres.

2. The District Forest Officer memo; on the subject is herewith forwarded.

Deputy Commissioner

Q. 1906

Memo

I beg to enclose herein an estimate for planting 60 acres along the margin of 55 yards fenced around the watershed of Kovagalla Tank, and solicit early sanction thereto. I hope to work out the whole of the estimated amount before the close of the year, if not too much under transplanting, trenching and fencing.

2 Nursery seeds have been raised as per your verbal orders. Two employees on Rs 10 each and two Kanakkis on Rs 5 each per mensem have been entertained to carry on the work under my orders.

3 As directed, a sum of Rs 2.10 for the present has been placed in each of the

D. O. No. 965. Deputy Commissioner's Office
Bangalore 31st March 1896.

From

The Deputy Commissioner
Bangalore District.

To

The Secretary
to the Government of Mysore
Revenue and General Departments
Bangalore.

Sir,

Adverting to your official correspondence ending with your D. O. No. 22 dated 12th instant, I have the honor to state that I have just returned from an inspection of the Hiccarghatta reservoir and its adjoining villages.

2. The object of the proposed transfer of certain villages from the Doddaballapur and Nelamangala taluks to Bangalore is to concentrate the authority for regulating the conservancy

of the Jeccarghatta water works and the sanitation of the tracts bordering thereon; as it is feared that by the division of the jurisdiction over the same among the several Taluk Authorities, the direction will be weak and inefficient.

3. If I am correctly informed in this respect, I think the proposals of the Assistant Commissioner Narsimhiengar are very judicious and may be sanctioned.

4. The villages proposed to be added on to Bangalore from Godballapur and Nelamangala are situated within easy reach of the Railways, and as the latter Taluks are otherwise large and extensive, the abstraction will not materially affect their size and importance.

I have the honor to be,
Sir,
Your most obedient Servant,

M. Narsimhiengar
Deputy Commissioner
Bangalore District.

D. No. 6 of 1880
111
Cir. Sec. -

Settlement Commissioner's Office
Sangaire District
Dated 5th March 1880.

To
The Secretary to the Government
of Inzire
Revenue & General
Department

Sir,

Referring to your Circular No. 6038/1545 dated 2nd January last on the subject of increasing the rates of assessment on the wet and garden lands under the Sangaita tank, I have the honor to inform you that I have inspected the said lands, & held a detailed Circle reconnaissance. The wet lands aggregate at acres 1035-5 and are assessed at Rs 1001-4-0, while the garden assessment to 130-55 acres is levied at Rs 5-4-0. They are attached to the 2 villages of Kanakkala and Kadaji Kanneallapura.

2. The rates on the above lands range from * Rs 2-4-0 to Rs 6-12-0 on

* Sangaitta

on the net, and from Rs 2-0-0 to Rs 3-0-0 on the gardens and from * Rs 3-4-0 to Rs 6-2-0 on the net and from Rs 2-8-0 to Rs 6-0-0 on the gardens.

* Kalegi Tirunaapura.

3. As the Government have decided that no water can be given to the above from the Periyakulam tank, the present net and garden rates have to be raised.

4. But although no water can be supplied to the lands from the Reservoir itself, it will not cease to irrigate the situation directly under the tank, and it will be possible to raise thereon crops such as varieties, Cholam, Cumbu &c which may be classed as intermediate between dry and wet land and net and garden on the other. Both tank is certain portion of the locality, while beyond the limit of the garden assessed from the bed of the tank, will have a full supply of water. It must therefore that they can fairly be assessed with what is locally known as Semi or 1/2 of the net and garden rates now

imposed

inspection, as above, under Rule [illegible] of Government Order No. [illegible] dated 5th March, 1892.

5. Shall not yet referred the matter for the opinion of the Survey Superintendent, pending the final decision of the Government.

6. Early orders are solicited on the subject as the collectors are going on and the cycle will not carry, say of arrears and until the correct assessment in their lands is settled.

I have the honour to be,

Sir,

Your most obedient servant,

[illegible]

D No. 24
Enc: one

(133)

Deputy Commissioner's Office
Bangalore District
Dt: 6th July 1896.

To

The Secretary to the Government
of Mysore
Revenue and General Departments.

Sir

As it has been decided by Government that all the lands draining directly into the Heserghatta tank should be acquired and conserved, I have the honor to submit herewith a list of the same, and request the sanction of the Government for their acquisition of these lands. A notification to that effect is submitted for publication in the Gazette under section 4 of the Land acquisition Regulation of 1894.

2. On the representation of the ryots of the villages named in the list to the Dewan during his visit to the Heserghatta tank, they have been permitted to cultivate these lands till they are compensated for them and settle down elsewhere. The ryots have accordingly availed themselves of the permission.

3. As some time will be needed to formally acquire the lands, settle compensation for them and

and oust the ryots, I would respectfully suggest that the matter should receive early attention of the Government.

I have the honor to be
Sir
Your most obedient Servant

GOVERNMENT OF INDIA
Dept. No. L.R.
No. 574-25
Serial No. 180

General Dept

Read letters Nos 595, 934, 965 and 24 dt 28th Dec 195, 24th March 196, 31st March 196 and 9th July 196 from the Dy Comm of the Bangalore District, submitting for the orders of Govt certain matters connected with the Hesaraghatta Water Supply Scheme.

Order No 1994-6 Mis 329 7-8-96

Pending the application of a subsequent consolidated Cess, the employment of Town Watchmen as recommended is sanctioned. The details of which they were entertained and the salary payable to them should be reported. The Cost shd be charged to the Project & duly adjusted in the D.P.

2. The posts of Havaldars Gondhalis and Chuckl Bearers should be allowed to lapse

As regards Town Watchmen

To Accounts
Transl Clerk 10/8/96

Question of opinion that the 8 tanks comprised in the Scheme are maintained and conserved by a permanent Establishment, Govt desire the Dy Comm's suggestions and proposals at an early date on the meanwhile

drainage area. (188)

3 - You are willing to give the ryots of Dapenhalli help in the shape of ~~grant~~ a grant of wood and Bamboos ~~either~~ at a reasonable extent either free of cost or at favorable rates according circumstances. The D.F.O. will ascertain their actual requirements by careful enquiry and submit a definite recommendation stating the conservation of forests.

4. It is understood that every thing necessary for the comfort and convenience of the ryots of Dapenhalli has already been done. As the other villages are not to be rebuilt in the places originally selected for them, the additional grant

From The Supdt Mysore Red Survey

To The Secretary to the Government of Mysore

Dated 10th August 1896

Despatched

Received

General No. 129
No.

Enclosure No.

Sir,

I have the honor to acknowledge receipt of Government Order No (40) 1359-6 dated 6th August 1896 directing the re-classification of the wet and garden lands under the Hessarghatta Tank with reference to the former and the present water value.

2

2 (193) Before putting the work in hand I should be glad to know whether there are any other tanks the water value of which may have been affected as a direct out-come of the Hessarghatta Scheme. I am not aware that there are any tanks other than Hessarghatta which require re-classification under the decision now arrived at but it would be as well to make the enquiry before the re-classification of the lands under the Hessarghatta Tank is commenced.

I have the honor to be
Sir
Your most obedt Servant

General No.
D No. 83.

Enclosure No. 1

Has the honor to submit
for sanction a bill, receive
from the 1st General
Assistant Commissioner
for Rs 46, on account of
the temporary establish-
-ment maintained for
the conservancy of the
lands around the water
spread of the Hesserghatta
Tank.

2. Government having
in para 3 of letter No Comp.
27 dated 14th December 95

pointed out the in-
-sanitary condition of
the catchment area and
the Chief Engineer having
in his inspection Notes
advocated the necessity
of a regular conservancy
establishment, four tem-
-porary watchers were
entertained by order of
the late Deputy Commissioner
at 3 Rs: per month from
21st December 1895.

3. As this establishment
has to be maintained for
some time more it is re-
-quested that necessary
orders may be issued to the
Comptroller to pass the charge
till 30th June 1897. The sanc-
-tion may be extended
if necessary at the end of
that period.

Read:—

Correspondence ending with docket No 7302 dated 21st March 90 from the Deputy Commissioner of the Bangalore District.

General D/M

Order thereon:— 1989-91
Rmi 326 11/96

Write this letter No 513 dated 27th February 1996 to the Dy Commissioner with a copy of the 1st Revenue Assistant Commissioner docket No 5 of the 3rd January 1996 ~~Collector's Proceedings to the~~ with its Enclosure being the draft of a declaration proposed to be issued under section 6 of the Land Acquisition Regulation XI of 1894 for the acquisition of certain lands in the

Gopaldandabi Village, Nainamadi ——
Taluk of the Nellamanjula
District, for the Extinctment
of Dasanadabi Village which
was taken up for the Hessara-
-gatta Water Project, and
Solicits sanction to the
payment of compensation
amounting to Rs. 211-5-1
in addition to the sum
of Rs 203-10-0 sanctioned
in Government Proceedings
No. 9978-80 dated 22nd
R 1023
December 93.

2. As the cost of purchasing
13 acres and 23 Guntas of
land for the formation of
the Village in question
was estimated by Mr. E.F.
Fortescue at Rs. 203-10-0
at Rs. 15 per acre, which was
sanctioned in the Proceedings
above cited, the necessity
for incurring a charge
amount, viz Rs 211-5-1
as recommended by the Inspector

2 - The declaration
referred to above
will be forwarded
to the Competent
Magistrate
for Publication

3 - The additional
Rent asked for
viz Rs 211-5-1

for 13 acres 3 roods 39 perches
of land in the said district
required for the purposes
of the said Act, and that
the said Minister has declared
for the application of the said Act
that he approves of the
said proposed taking
for the purposes aforesaid

Secretary.

To

The Secretary to the Gover[illegible]
of M[illegible]
Genl & Rev. Departments.

Sir,

(5-3)

With reference to your No. 186
R.F. 166-[illegible]
dated 19th August last, I have the hono[illegible]
to state that in addition to the wet-
lands under the Hesserghatta tank,
requiring to be reclassed, the achkats
of the tanks of Dasenahalli, Harohalli
Byata, Kakol, Sonnenahalli and Chika-
devanapura, which were acquired
on payment of compensation and in
which cultivation has been interducted
should in my opinion be classified as
"Kharab" and the wet assessment thereon
struck off. I have the honor to be

Sir
Your Most Obedient Servant.

By Order
for Dy Commissioner.

the lands
~~which~~ were acquired
and given in exchange,
and the remainder
should be sold with a view as to what forms
to leave the Municipality
in respect of
the lands to be
given in exchange.

4 3d There is obviously
nothing gained by taking
Madeihalli lands without
also taking more of
Byata. The acquisition
should therefore be
confined to such of
the Madeihalli lands
as the dispossessed
house owners wish to
give up.

6. A Map showing the
lands ~~the~~ already acquired,
lands belonging to Govt.
such as Gomal, Village
site, Govt waste appeared
and unappeared etc,
and the lands proposed
to be taken up under
para 5 of this order,
should be carefully
prepared and forwarded
to Govt at a very early
date. In this map
should also be shown
all the lands at the
disposal of Govt in

READ :—

Letters Nos. 595, 954, 965 and 24, dated 28th December 1895, 24th March 1896, 31st March 1896 and 6th July 1896, from the Deputy Commissioner of the Bangalore district, submitting for the orders of Government certain matters connected with the Hessarghatta water-supply scheme.

No. 1994-6—Mis. 329, DATED, BANGALORE, 7TH AUGUST 1896.

ORDER THEREON.—Government are of opinion that the eight tanks comprised in the scheme are best maintained and conserved by a permanent establishment. On this point, Government would like to have the Deputy Commissioner's suggestions and proposals at an early date. In the meantime, pending the appointment of a permanent conservancy establishment, the employment of four watchmen, as recommended, is sanctioned. The date on which they were entertained and the salary payable to them should be reported. The cost should be charged to the project and duly adjusted in the Public Works Department.

2. The raiyats of Horohalli, Gondahalli and Chikdevanpura should not be allowed to settle anywhere within the drainage area.

3. Government are willing to give the raiyats of Dassenhalli help in the shape of a grant of wood and bamboos to a reasonable extent either free of cost or at favorable rates according to circumstances. The Deputy Commissioner will ascertain their actual requirements by careful enquiry and submit a definite recommendation through the Conservator of Forests.

4. It is understood that everything necessary for the comfort and convenience of the raiyats of Dassenhalli has already been done. As the other villages are not to be re-built in the places originally selected for them, the additional grant of Rs. 2,000 proposed to be spent in the construction of wells, chavadis, &c., for the benefit of the raiyats of those villages is unnecessary.

5. The extent of lands proposed to be acquired in the drainage area of the Hessarghatta tank is much larger than was anticipated and Government, therefore, deem it necessary to restrict the acquisition for the present as follows :—

(*1st*) The entire occupied area in the villages of Gondahalli, Horohalli and Chikdevanpura should be acquired.

(*2nd*) The lands of Dassenhalli should be taken up near the water-spread to the extent of Government unoccupied land which can be assigned in exchange near the new village. A plan showing the lands thus acquired and given in exchange and the remainder should be submitted with a report as to what favorable terms the Deputy Commissioner would propose in respect of the lands to be given in exchange. And

(*3rd*) There is apparently nothing gained by taking Madihalli lands without also taking those of Byata. The acquisition should, therefore, be confined to such of the Madihalli lands as the dispossessed house-owners wish to give up.

6. A map showing the tank, the lands already acquired, the lands belonging to Government such as gomal village site, Government waste assessed and unassessed, &c., and the lands proposed to be taken up under para 5 of this Order should be carefully prepared and forwarded to Government at a very early date. In this map should also be shown all the lands at the disposal of Government in the adjoining villages such as gomal, Government waste, assessed and unassessed, &c. The map should be accompanied by a statement of lands to be acquired under the Order in para 5, and by an estimate of the probable cost of such acquisition.

7. Orders regarding the proposed formation of a plantation will be reserved pending the receipt of the maps called for in paras 5 and 6 above.

EXECUTIVE ENGINEER'S OFFICE,
Bangalore Water Supply DIVISION,
MILITARY WORKS.

From

THE EXECUTIVE ENGINEER,
Bangalore Water Supply DIVISION,
MILITARY WORKS,

To

The Deputy Commissioner
Bangalore District
Bangalore.

Public Works Department,
Military Works.

Dated 22nd January 189 6.

Sir,

I have the honor to forward herewith a tracing of the land required by the Government by me on which to situate the Water works, for the Civil and Military Water Supply.

There are two plots, one near the village Tarikalli, these plots are under dry cultivation previous to the harvest.

I have received orders to Commence burning bricks and collecting material, for the work and I would be very much obliged if you would give me permission to, at once take possession of the land pending the receipt of your valuation statement.

Enclosure
1 Tracing

Plan sent direct to Revenue Dept 27.1.96

of water from one well having been found insufficient another one is sinking

4. Everything necessary for the convenience and comfort of the ryots of this village has already been attended to and all the inhabitants of Dasenahulli have quitted the village and permanently established themselves in the new village. Any further help that may be considered necessary will be given to these villagers.

5. A map and a detail statement shewing the entire occupied area and proposed to be acquired in the villages of Goudihulli and Harohulli and Chik Devanapura, as also portions of Dasenahulli lands in exchange for which lands have been assigned near the new village, are herewith submitted as directed. It is necessary that compensation must be granted to some of the lands acquired as the owners of those lands do not belong to Dasenahulli and are the residents of other villages. They do not seem to care to have lands given in exchange. Lands have been selected

to be given to Dasenahulli people for cultivation out of gomal attached to the adjacent villages of Gudadahulli, Kukulahulli and Kodihulli, care being taken to reserve sufficient gomal land for each of the villages above named. For such of the lands as have been selected to be given in exchange, I would urge that a reason = able sum sufficient to cover th cost of improving the soil, so as to fit it for cultivation, should be granted to each holder.

6. Almost all the ryots of Medihulli whose houses have been ac = quired have established themselves at present in temporary sheds near Byata and will not voluntarily part with their lands in Medihulli.. Considering the proximity of these lands as also of the villages of

I have erected Boundary stones, about the 3rd in question, and will be happy to point them out to any one you may depute to put me in possession of the land, pending final settlement.

I will be very much obliged if you will treat this letter, as Urgent, as I have no place, on which to check my materials.

I have the honor to be,

Sir,

Your most obedient servant,

Capt. R.E.

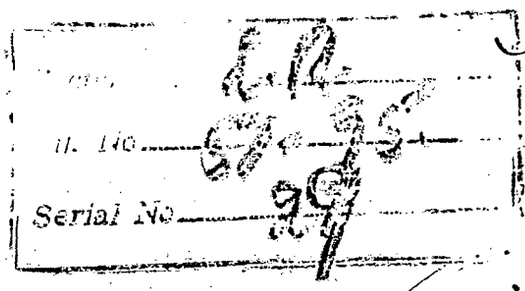
The Supdt. Irrigation Service



V/11 4927 ire Imperl.
Ltr. No. 7.166-95 8/12/95.

In reply to your letter No. 129 dated 10th August 1896, on the subject of the reclassification of the wet and garden lands under the Nocargatta Tank, I am directed to inform you that there are no other lands which have to be reclassified with reference to this former and present water value but that the deputy Commissioner reports that

that the ayakats of the lands of Dasanhalli, Narohalli, Byata, Kakli Sonnenhalli and Chikkeranapura which were acquired on payment of compensation and in which cultivation has been interdicted have to be classified as Kharab and the wet assessment thereon struck off.

I have &c.

1/12/86

Secretary

grant of wood, timber, &c. of few ryots of Gondiballi applied for and were granted a little help in the shape of wood, &c, in building new houses in a New Quarter.

3. The Assistant Commissioner urges in para 6 of his Memo that all the lands of Byāta, Kakol and Médiballi should be required, in order to ensure the sanitation and purity of the reservoir. There can, I submit, be no doubt of the advisability of the measure, only the cost would I apprehend much exceed the limits intended by Government.

4. Like the ousted ryots of Gondiballi those of Médiballi and others do not leave the locality and are squatting on the neighbouring plains, waiting for their compensations. It will be easy to induce them to leave altogether after payment.

5. The ryots had been permitted last year to cultivate the lands, which are included in the area marked for acquirement, but which are still in their possession. The harvest is nearly over, and they earnestly plead that they may be allowed to take another crop before being turned out as paupers.

I am just back from a visit to the

locality. Bearing in mind the very poor crop these ryots have had this year and their narrow escape from distress, if not worse, I humbly submit that the cultivation of these lands may be permitted for the coming year, Fevilands, and that as soon as it is over, the ryots should be paid and made to leave simultaneously. Such a concession will not in my judgment interfere with the contemplated conservancy of the whole basin.

6. The lands which have to be acquired measure 1,597½ acres, of which 1,040 7/20 acres are occupied. The rate of Rs 50/- an acre was previously adopted in the same locality for compensation, and valued at that price, the cost of the acquisition of the aforesaid area is estimated at about Rs 52,050/-

7. Turning now to the conservancy of the tank, there are at present 4 watchmen @ 3 Rs, the cost being debited to the Department Public works. Bearing in view the extent of ground covered and the length of the water margin, it is I submit no wonder that the conservancy work is so unsatisfactorily performed. I therefore agree with the Assistant Commissioner (vide para 1 of his memo) in the opinion

Pwd 6 XU 30

Memo No. X
ac: 3.

With reference to Government Proceedings No. 1994-6 (48) Min. 329 of the 4th August 1896, calling for suggestions and proposals with regard to the maintenance and conservancy of the principal tanks comprised in the Kekkaragalla water supply project, and a report and plan concerning the acquisition of additional lands for the said project, I have the honor to state as follows.-

For the thorough conservancy of the eight tanks situated immediately above the Kekkaragalla reservoir and of the water spread and drainage area of those tanks, the employment of some efficient

subordinate supervising officers and
and a sufficient number of watch-
men to keep strict watch over the
tanks at all hours of the day is in-
-dispensable. There ought to be an
Inspector who understands the
principles of sanitation to supervise
the working of the whole staff. And
as it is contemplated that the drainage
area ought to be planted with trees,
it would be advantageous to secure
the services of a person who under-
-stands both the principles of
sanitation and forestry for the
post of Inspector. The salary of the
Inspector may be fixed at Rs. 25/-
per mensem. Under the Inspector
one overseer, four peons, and 12 con-
-servancy men may be employed.
This staff will be considered just

efficient if the large area and the number of tanks which are to be watched are considered. It would much facilitate work if the Inspector and his subordi= =nates were placed directly under the control of the Deputy Commissioner of Bangalore or any other officer the Government may appoint to be in charge of the Hessaraggatta tank. Four watchmen on a salary of 3 Rs. each per month were temporarily employed on the 21st December 1895. The cost thus incurred has been charged to the Project as per orders for the adjust= =ment in the Public works department.

2. All the rights of Gondi-Kudi, Karahalli and Chik Devanapura, with a few exceptions of the first, refused to erect new villages and settle down in the localities erected for the purpose and although the old villages were long

Villagers
ago vacated, the ~~villagers~~ were allowed
to live in temporary sheds till har-
=vesting the last crop. Steps have now
been taken to remove them altogether.
Most of these villagers appear to have
purchased cultivable lands in dif-
=ferent and distant localities and
seem to be only waiting to receive pay-
=ment of compensation for the remain-
=ing portion of land at present in
their holding. When the compensation
is settled and paid this is being done
now and will be completed in a
couple of months when the present
occupied lands will be vacated.

3. A decent and healthy
locality was selected for the esta-
=blishment of a new village for the
inhabitants of Dasanahalli. A
well of drinking water was also
sunk for the use of the ryots. Sanitary

Kakoi and Byata to the water spread area of the Kecaragatta tank, it is very necessary to acquire all the lands of Nedimali, Kakoi and Byata and to remove the last named villages to a safe distance.

7. A map showing details as called for in para 6 of Government proceedings under reply is herewith submitted. The total extent to be acquired in the villages of Londiwela, Kandulli, Chik Devanapura and Dasanahalli including Government waste accessed and unaccessed is 1511 acres and 20 guntas. Of this 1340 acres and 34 guntas are in the holding of ryots. The probable cost of this acquisition may amount to Rs. 220/- the average rate of compensation adopted being 500 Rs. per acre the rate approved and adopted in

case of lands acquired in previous instances. The lands such as gomal, accessible waste at the disposal of Government in the adjoining villages are also shown in the accompanying map.

Submitted to the Deputy Commissioner.

Villages	Area Acres. gunts.	Assessment Rs. A. P.
Gondihalli	205. 1.	346. 14. 0
Chikka Devanpur	434. 29	619. 3. 6
Medihalli ..	184. 39	255. 7. 11
Harohalli ...	348. 6	491 0. 10
Total	1,172. 35	1712 - 10 - 3

The Compensation required to be paid for these lands at an average rate of Rs. 50 per Acre is likely to amount to about Rs 58,650, and the Capitalized value of the Assessment at 25 years purchase will be Rs 42,816.

The Durbar are of opinion that the removal of the four villages in question outside the Catchment is most desirable in the interests of Sanitation. They beg accordingly to propose that the Cultivated lands of an Aggregate Area of 1172.35 acres guntas be acquired, the Cost of such acquisition being divided between the British Govt & the Mysore State under Clause (d) of para 3 of the Agreement of 17 Feb 1897. ~~If such acquisition is decided upon,~~ the Durbar are willing to forego the Assessment.

The favor of an early reply is requested, as some definite decision has to be arrived at before the next S.W Monsoon.

GOVERNMENT OF MYSORE.

GENERAL.

PROCEEDINGS.

Dated 26*th March* 1897.

Camp No. 551—4.

Directing the Deputy Commissioner, Bangalore District, to submit a detailed report as to the strength and other details of an establishment required for the due maintenance and conservancy of the Chamarajendra Reservoir and the delivery channel therefrom to the Durbar Pumping Station.

Govt. Branch Press, Mysore.—27-3-97.—120.

CAMP No. 551—4, DATED MYSORE, 26TH MARCH 1897.

ORDER.—Suitable arrangements have now to be made for the due maintenance and conservancy of the Chamarajendra Reservoir and the delivery channel therefrom to the Durbar Pumping Station. An efficient establishment, with a clear definition of the duties of each member of it, has to be entertained for this purpose, and before deciding upon the strength and other details of this establishment, it is necessary to ascertain what portions of the present village establishments of Hessarghatta, Kakol, Byata and other neighbouring villages can be utilised for duty in connection with the Chamarajendra Reservoir. The Deputy Commissioner of the Bangalore District is accordingly requested to submit to the Government in the General and Public Works Departments simultaneously, any suggestions he may wish to offer in the matter together with a statement (in the accompanying form) of the staff of village officers and servants of the villages above referred to.

As wet cultivation under tanks comprised in the water-supply system has been abolished, the normal work of the village officers and servants have in all cases been greatly reduced and in the case of Nirgantis, it has altogether ceased. Under such circumstances new duties in connection with the Chamarajendra Reservoir can readily be assigned to all members of the village service of the villages concerned. What these duties should be in the case of each officer or servant and what additional remuneration, if any, is required for each individual are questions which should engage the careful consideration of the Deputy Commissioner, whose report should contain a full statement of his recommendations upon these points, together with his opinion as to any new establishment required.

It would be desirable, if feasible, to include under "Maintenance and Conservancy" any planting to be carried out around the water-spread and feeders.

The Secretary to the Government of Mysore
Revenue and General Departments.

Sir.

With reference to Government order Camp No. 551-14 of 26th March 1897, calling for a statement of the village servants whose services will not be required by reason of irrigation from the tanks of their villages having been stopped in connection with the Hesseraghatta water supply tank, I beg to submit herewith the statement wanted. The question of the efficient conservancy of the Hesseraghatta tank was discussed on the 28th February 1898 at Hesseraghatta by a committee composed of Mr. Whiteley, (Assistant Chief Engineer

gineer), the Executive Engineer of the Military water Supply Division of the Civil and Military Station of Bangalore, the Executive Engineer of the Hesserghatta water Supply Division and myself. It was resolved then to employ a separate establishment for this purpose and to place it under the orders of the Executive Engineer of the Hesserghatta water Supply Division. The details of the proposal will be shortly intimated by Mr. Whiteley.

I have &c

No. 50/P

To

The Resident in Mysore

Sir,

I have the honor to forward herewith for your information (7) a Copy of the Proceedings of the Mysore Govt No. 9973-38-R. 1024 Dated Bangalore 22d December 1892 sanctioning a Sum of Rs 77,624. 14. 8 for the acquisition of certain lands and inhabited Villages required for the Enlargement of the Hemagbatta Chamarajendra Reservoir at Hemagbatta. The acquisition thus sanctioned of both lands and Villages has already been carried out—

The Villages were required, not from Sanitary Consideration, but because their situation within & near the water Spread rendered them liable to submersion when the water level of the new tank discharged. In order to carry out the original intention, it will be sufficient now to allow these Villages to be rebuilt in higher situations in the same locality, & the people concerned themselves are anxious to rebuild their Villages and to resume the cultivation of their old lands.

but upon a site which is not within a convenient distance of their cultivated lands and the people living in the new villages will not conveniently cultivate them

inside the Catchment can readily cultivate their old lands within the Catchment. But such an arrangement is not feasible

It would however be a great hardship to allow them to re-build within the Catchment of the Reservoir. It has been possible to cause one of the five required villages (namely Dasenahalli) to be re-built outside the Catchment, but in the case of the other four villages, ~~there~~ ~~cannot be outside the Catchment nor are~~ the new sites for them outside the Catchment are all at a great distance from their lands. There two alternatives now present themselves, namely, either to ~~buy up the whole of the Cultivated lands~~ compel the villagers to go anywhere they please outside the Catchment to rebuild their houses ~~of~~ the Govt. ~~to~~ buying up their cultivated lands within the Catchment or to permit them to rebuild their houses in convenient proximity to their lands but within the Catchment and to keep & cultivate their lands. The second of these alternatives costs nothing to the Govt, beyond what has already been paid for the removal of the Villages from their old Situations, but the first alternative will require ~~the~~ the buying up of the whole of the land, ~~with Cost~~ lands, ~~with Cost at~~ ~~Rs 5,60,000~~

The extent and Assessment of these ~~Cultivated~~ lands ~~of the Villages in question~~ are as follows:-

MEMORANDUM OF AGREEMENT made this seventeenth day of February 1897 between THE SECRETARY OF STATE FOR INDIA IN COUNCIL (hereinafter referred to as the Secretary of State which term shall include the Secretary of State party hereto his successors in office and assigns) of the one part and HIS HIGHNESS SRI KRISHNA WOODAYAR BAHADUR MAHARAJA OF MYSORE (hereinafter referred to as the Maharaja which term shall include the Maharaja of Mysore party hereto and his successors) of the other part.

WHEREAS in consideration of the Secretary of State relinquishing the claims mentioned in clauses 1 and 2 of this Agreement the Government of Mysore has through Sir K. Sheshadri Iyer, K. C. S. I., the Dewan of Mysore, and *ex-officio* President of the Council of the said Government agreed to allow the British Government to obtain from the Chamrajendra Reservoir and the minor tanks connected therewith (hereinafter called the Chamrajendra Reservoir) a supply of water for the Civil and Military Station of Bangalore (hereinafter called the Station) upon the terms and subject to the conditions hereinafter expressed. Now THESE PRESENTS WITNESS that it is hereby mutually agreed between the parties hereto as follows:—

1. The Secretary of State shall for the consideration aforesaid relinquish all claim to a refund of the sum of Rs. 2,33,000 paid by the Secretary of State to the Maharaja to provide compensation to the occupants of the Maligal valley in connection with the scheme for the supply of water to the Station from the Maligal valley, known as the Maligal Scheme, and the Maharaja shall be at liberty to retain any sum that may still remain undisbursed of the said sum of Rs. 2,33,000 and to take such steps as he may think fit to recover the sums already disbursed from the persons to whom compensation may have, from time to time, been paid in connection with the said Maligal Scheme.

2. The Secretary of State shall for the consideration aforesaid relinquish all claim to the use of the water from the tank known as Sankey's Tank from the date on which the supply of water from the Chamrajendra Reservoir for the Station to be provided under this Agreement is established and in full working order.

3. In consideration of the water-supply to be provided under this Agreement the Secretary of State agrees to pay to the Maharaja half the cost of the following items:—

(*a*) The construction, completion, repair and maintenance and the restoration, in case of accident, of the water-tower, the masonry delivery channel and aqueducts (except that portion between No. VI aqueduct and the pumping station known as the Durbar Pumping Station), the workshop and the workshop plant which are to be constructed, completed, repaired, maintained and restored by, and at the expense of, the Maharaja for the purpose of the said water-supply.

(*b*) The ordinary maintenance and conservancy of the Chamrajendra Reservoir, it being expressly agreed that the cost of the establishment required therefor, half of which shall be paid by the Secretary of State, shall not exceed Rs. 300 a month.

(*c*) The restoration of the Chamrajendra Reservoir should any accident happen to it.

manner of the carrying out of any works or repairs, the entertainment of any establishment, or the adoption of any protective or sanitary measures in connection with the supply of water from the Chamrajendra Reservoir, or in regard to any other matter arising out of this Agreement, the matter in difference or dispute shall be referred to the decision of an arbitrator to be agreed upon and appointed by the Secretary of State and the Maharaja, and the decision of such arbitrator shall be final and binding upon the parties hereto.

In witness whereof the Dewan of Mysore acting for and on behalf of His Highness the Maharaja of Mysore has hereunto set his hand and the seal of the Government of Mysore this the twenty-ninth day of January 1897.

In the presence of
1. K. KRISHNA IYER,
2. A. N. SIVAGNANAM.

(L S.)

K. SHESHADRI IYER,
Dewan of Mysore.

And the Secretary to the Government of India in the Foreign Department, acting for and on behalf of the Secretary of State has hereunto set his hand and the seal of the Government of India, this the seventeenth day of February 1897.

In presence of
H. DALY.

(L. S.)

W. J. CUNINGHAM,
Secretary to the Govt. of India.

8. The Secretary of State and the Maharaja shall have equal rights in the water obtained from the Chamrajendra Reservoir for the purpose of supplying the Station and the City of Bangalore (hearinafter called the City) respectively with a sufficient supply of water. For seven years from the date of this Agreement, one million gallons each per diem shall be held to be a sufficient water-supply for the Station and the City, respectively. At the end of seven years from the date of this Agreement and once in every ten years after that period it shall be decided by the Officers of the Government of India and the Officers of the Government of Mysore duly authorised in that behalf what quantity of water shall, thereafter, be held to be a sufficient water-supply for the Station and the City respectively, the quantity for the Station and that for the City thus to be fixed being equal to each other. In all other respects the rights of the Secretary of State and the Maharaja respectively in the water of the Chamrajendra Reservior shall remain unaltered.

9. The Officers of the Government of India and the Officers of the Government of Mysore duly authorised in that behalf shall agree from time to time as to the height of water in the Chamrajendra Reservoir which shall, at different seasons of the year, be taken to be a safe minimum level for ensuring a continuous supply of water to the Station and the City with reference to the water-supply of the Station and the City respectively, as fixed under Clause 8 above.

10. If at any time the water in the Chamrajendra Reservoir shall stand at a higher level than that fixed as the safe minimum level for that season of the year, the water which shall in consequence become available and shall not be required for the purposes of this Agreement shall be at the absolute disposal of the Maharaja or the Government of Mysore.

11. If at any time the water in the Chamrajendra Reservoir shall fall to the level fixed as the safe minimum level for that season of the year, the whole of the water of the Chamrajendra Reservoir shall be reserved exclusively for the supply of the Station and the City, and the Maharaja and the Government of Mysore shall not be entitled to draw off any water from the Chamrajendra Reservoir for any other purpose whatsoever until the water in the Chamrajendra Reservoir has again risen above the safe minimum level; and until the water shall be above the safe minimum level, the quantity of water to be drawn daily for the water-supply of the Station and the City shall be limited to the quantity forming the basis of the calculaton of the safe minimum level and the same shall be supplied to the Station and the City in equal quantities.

12. If at any time the water in the Chamrajendra Reservoir shall stand at a lower level than that fixed as the safe minimum level for that season of the year, the Officers of the Government of India and the Officers of the Government of Mysore duly authorised in that behalf shall consult together as to the measures to be taken in consequence and on their agreeing that the supply of water must be reduced below the quantity up to that time held to be a sufficient water-supply, the supply of water both to the Station and to the City shall be reduced in equal quantities.

13. If any difference or dispute shall at any time arise between the Secretary of State or the Government of India, on the one part, and the Maharaja or the Government of Mysore, on the other part, in regard to the necessity for or the

(*d*) Any additional works or any establishments or protective or sanitary measures in connection with the said water-supply, to the execution or entertainment or adoption of which the Secretary of State and the Maharaja may hereafter mutually agree. Provided that, should at any time hereafter the Secretary of State be dissatisfied with the quality of the water in the Chamrajendra Reservoir and desire to improve it by the acquisition of additional inhabited villages or cultivated lands in the catchment of the said Reservoir, and should the Maharaja not agree to share the cost of such acquisition with the Secretary of State, then the entire cost of such acquisition shall be wholly paid by the Secretary of State. Provided also that the Maharaja shall give all facilities and assistance for the acquisition, at a reasonable price, of such villages and lands, and for the erection of all works deemed necessary by the Secretary of State.

4. In consideration of the relinquishment by the Secretary of State of all claim to a refund of the sum of Rs. 2,33,000 mentioned in clause 1 hereof and in consideration of the payment by the Secretary of State to the Maharaja of the sums provided under clause 3 hereof, the Maharaja agrees to construct, complete, repair and maintain the Chamrajendra Reservoir and all works connected therewith, which are to be used in common by the Government of India and the Government of Mysore, the said Reservoir and all works connected therewith to be at all times under the exclusive management and control of the Officers of the Government of Mysore. PROVIDED ALWAYS that all Officers of the Government of India duly authorised in that behalf shall have free access to the Chamrajendra Reservoir and all works connected therewith for the purpose of inspecting and reporting as to their condition and safety.

5. The Maharaja shall, through the Government of Mysore, consult the Secretary of State, through the Government of India, and the consent of the Secretary of State, through the Government of India, shall be obtained in regard to all measures to be adopted in cases of anticipated or actual failure or deterioration of the supply of water to be provided under this Agreement or on the occasion of extensive alterations in or repairs to the storage works or the works for the delivery of the water, which are to be used in common by the Government of India and the Government of Mysore or which affect the combined supply of water to the two Governments. The measures to be adopted shall be carried out by the Maharaja and the cost thereof shall be defrayed as hereinbefore provided by the 1st paragraph of Clause 3 (*d*).

6. The Maharaja shall not be responsible for any loss which may arise or be occasioned to the Secretary of State or the Government of India in consequence of any diminution in or interruption of the supply of water required by the Station arising from accident, failure of the rains or any other cause beyond the control of the Maharaja or the Government of Mysore.

7. The Maharaja shall allow the Secretary of State to erect the pumping machinery required by the Government of India, to take off water from the channel from the Chamrajendra Reservoir belonging to the Maharaja and to lay the pipes required by the Government of India through the country lying between the point where the water is taken off and the Station, the Secretary of State paying the cost of the lands required for the purpose.

	293-38	444-4-0	158-36	54-27	22-36	26-9	556-26

5. The total extent of the occupied Lands to be taken up in the Dasenhalli village being 32-38, it is not understood, why an area of 194-11 of land (assessed waste & gomal) is proposed to be given in exchange in the villages of Kukkalahalli, Guddeahalli and Dasenhalli of the Nelamangala Taluk and Koolihalli of the Doddaballapur Taluk. A further report should be submitted on the point.

6. The question of increasing the conservancy establishments of the Lands and placing it under the

Rev Department will be referred to the Chief Engineer for opinion.

D. No. 1422

Bangalore District
Dy. Commissioner's Office
Bangalore 1st April 1898.

To,

The Secretary
to the Government of Mysore
Revenue and General Depte.

Sir,

With reference to your
Memo: No. 10014/R&A 156-93 of the 20th April
1898, enquiring what action has been
taken on the orders of Government
conveyed in Proceedings No. 28-4-6/Mis 480
of the 22nd August 1897, directing
the acquisition of certain lands,
lying within the cantonment area
of the Chamarajendra Reservoir at
Nevenghatta in the Nelamangala
Taluk, I have the honor to state that
the 1st Asstt. Commissioner of the
District, in whose division the
lands reserved to lie, and the Amildar
of the Taluk, are engaged in ac-
-quiring them. For a very large

area, namely, 2200 odd acres, held by a large number of persons, has to be acquired the work occupies some time and the said Scott Commission has promised to complete it by the 15th of June 1895. If some money (say about Rs. 50,000) were placed at his disposal, it would facilitate the work, as he will then be able to settle, at once, the cases of such of those as agree to a fair settlement amicably.

2. You enquire why the people of the villages of Bandikal Karohalli and Chikkadevanapura which were evacuated, were permitted to rebuild their houses & their lands within the catchment area of the tank. They were not permitted to do so, but it would appear that when they had to leave their villages, all at once, some of them could not but settle down temporarily

in their fields, as can be seen from para 5 of the said Asst. Commissioner's letter No. 35 of the 28th December 1895 forwarded with my Dy. Commr's letter No. 5203 of 28th December 1895. The tiers fields are also considering rapidly acquired, as stated in the preceding para, the temporary hate will disappear ere long.

I have the honor to be
Sir
Your most obedient servant

Dy. Commissioner,
Bangalore District.

(96)

FROM

THE FIRST ASSISTANT TO THE RESIDENT IN MYSORE.

To

The Dewan of Mysore.

Dated Bangalore, 7th Jan *1898.*

SIR,

I am directed to address you on the subject of the acquisition of certain lands and villages in the catchment area of the Chamrajendra Reservoir at Hessarghatta.

2. In the Durbar's Proceedings No.9978-80-R 1024 dated the 22nd December 1893, it was decided to acquire certain lands at a cost of Rs.60533-0-8 and certain villages (5 in number) at a cost of Rs.17031-14-0 and a sum of Rs.77624-14-8 was sanctioned "for the acquisition of the lands and villages above referred to and the establishment of new villages in lieu of those removed". The work was ordered to be "completed as quickly as possible".

3. In your letter No.50-D dated the 14th April 1897 you reported that the lands and villages above referred to, had been acquired and it was understood that with the exception of Dasenhalli (which had been rebuilt on a site outside the catchment) the villages, though acquired, had not actually been vacated or re-established elsewhere either within or outside the catchment.

catchment. The sentence occurring at the end of para 1 of your letter to the effect that the villagers were anxious "to resume the cultivation of their old lands" would convey the impression that the village lands had ceased to be cultivated, but it is understood that as a matter of fact possession had not been disturbed. You reported that the village of Dasenhalli had been rebuilt outside the catchment (presumably within the estimate of Rs.1455-10-0) and that the people of this new village were cultivating their old lands within the catchment area. As regards the villages of Gondahalli, Chickdevanpur, Medihalli and Harohalli you stated that two courses were open viz:

+211-5-1.
vide Opn. Dr. 1935-91 Bg 7.856 Dem 826 (47)

(1) to permit the villagers to rebuild their houses within the catchment and to keep and cultivate their lands.

(2) to compel the villagers to move to some unspecified place outside the catchment and to rebuild their houses there, the Government buying up their lands within the catchment. You recommended the latter course and stated that the compensation to be paid for the lands of these 4 villages would amount to Rs.58650/-

4. Your proposal was laid before the Government of India who agreed to bear half the cost of acquiring the said village lands and the fact was communicated to you in my letter No.3337 dated the 13th August 1897. Though more than 8 months have elapsed very little, the Resident understands, has been done.

5. In the enclosure to Colonel Bowen's letter No.210-1352 dated the 8th March last, it was stated at clause K that the drainage and conservancy of

Medihalli

Medihalli required "immediate attention". The Committee were of opinion that the old village sites of Gondehalli Harohalli and Chickdevanpur should be inspected at once by the Amildar and a report sent to the Deputy Commissioner as to whether the villages had been completely abandoned and that if they had not been vacated, steps for complete evacuation should be taken at once.

6. On the 13th ultimo the Executive Engineer Bangalore Water Supply Division, Military Works, reported to the Resident that the only village removed from within the catchment was Basenhalli, that the other four villages were still within the catchment, but on higher ground than before; and that the lands of these four villages were being freely manured down to the 150 feet margin.

7. It seems clear that the four villages in question notwithstanding their acquisition, still exist within the catchment and that the lands belonging to them are still unacquired or at any rate are still cultivated, and what is more, manured, and I am to express a hope that the Durbar will take immediate steps to give effect to your proposals of April 1897, which were approved by the Government of India about 8 months ago. The acquisition of the villages of Gondehalli, Chickdevanpur, Medihalli and Harohalli was sanctioned by the Durbar 1893, and was reported as having been completed in your letter of the 14th April 1897. The sites should, it is suggested, be levelled and all rubbish, manure etc should be burnt or removed. The villages should not be rebuilt within the catchment, and finally to complete the sanctioned arrangements, it is very desirable that the lands belonging to the villages be immediately acquired and thrown out of cultivation.

8. The lands within the catchment belonging to Dasenhalli are being cultivated, and so far as the Resident is aware there has never been a proposal to acquire them like those of the other 4 villages, but Captain Reynolds R.E. has suggested that such a course would be desirable in order to prevent the manuring of fields within the catchment. He has also submitted certain proposals regarding the villages of Eyata, Kakol, Sonnenhalli, Chinsandra and Danapalya in his letter of the 21st ultimo extract of which is attached.

paras 8 to 13

9. The desirability of preserving the water of the Chamrajendra Reservoir from all possible sources of contamination cannot, I am to add, be too strongly insisted upon, and the Resident will be obliged if immediate orders can be issued in order to prevent the occurrence of further delay in a matter of such vital importance.

I have the honor to be

Sir,

Your most obedient serva

K. D. Erskine

Captain,

First Assistant Resident.

of a very early return.
Next (1) the acquisition
of the lands in question
have all been taken, (2)
that the cultivation
of all these lands
has been stopped and
the owners have removed therefrom
(3) that the Village
Committee have all
cleared out of the
catchment.

C. -

12/5/98

Extract of letter No.465 dated the 21st April 1898 from the Executive Engineer, Bangalore Water Supply Division, Military Works, to the First Assistant to the Resident in Mysore.

8. While writing on this subject I beg to again call attention to the village of Byata, draining into the Lake, and those of Kakol, Sonnenhalli, Chinsandra and Danapalaya draining into Kakol Tank, which, containingas it does half the draw off for either the Civil and Military Station or the Pettah for one year, is an important portion of the system.

9. Bya[illegible] a large village situated quite close to the lake [illegible] in such a position that it would be impossible to [illegible]t its drainage so as not to go into the lake. It [illegible]ost essential that this village should be acquired [illegible]r removed and as no site could be found for it outs[illegible] the catchment and near enough for the villagers to [illegible]ivate their lands, this means that the lands must also be acquired, and this will also prevent manuring on the catchment. This should be done before the next monsoon.

10. Sonnenhalli, Chinsandra and Danapalya are hamlets; they and their lands should be acquired and the villages removed and no cultivation permitted on the lands. This can wait until the question of what is to be done with Kakol has been decided, and meanwhile no water should be passed from Kakol tank into the Lake.

11. Kakol is the largest village in the

immediate catchment. C

To,

The Deputy Commissioner

Bangalore District.

Sir,

With reference to your

X dated 11.5.98 memo* I have the honor to report

as follows:-

1. The work of acquiring

lands for the Hesaraghatta wa

project is progressing satisfac-

torily. The ryots of Harohally

have at last come to terms

and agreed to accept compen-

sation for their lands at the

rate of 40 Rs per acre. Till

yesterday, cases regarding 100

acres were settled and Muchalikas from

the parties taken. A hundred and

fifty acres have yet to be formally

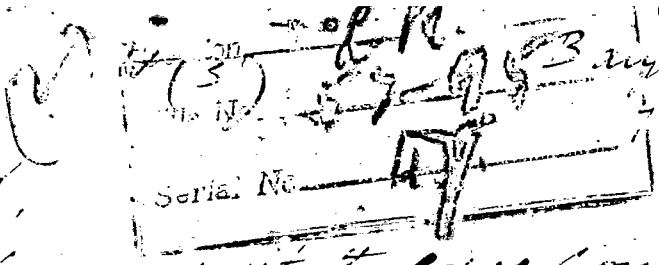
acquired. Muchalikas from the

are being taken. So, the lands

belonging to Avobally may be
said to have been completely
acquired and taken possession of.

As regards ~~the~~ Jondi Bally lands,
the ryots have not yet agreed
to the terms proposed. They are
obstinate and wish to gain time,
in order to obtain the crop of the
current year. Cultivation of the
lands have, however, been stopped.
Notices under the provisions of the
Land Acquisition Act have
been served and the lands will
be taken possession of after the
expiry of the 15 days' notice, given
~~to the ryots~~ concerned.

3. The ryots of Chick Devan-
poora have also been obstinate
like the Jondi Bally people. They
are being pressed to evacuate
their present (temporary) dwellings



Dear Miss [illegible]

Please refer to the correspondence re the project of the acquisition of land in the extension of the Margarita Reservation and [illegible] ago I placed in your hands [illegible] at your disposal & requested you to expedite the acquisition. In this connection the Census writes to me from Ottawa as follows: "I don't know what delay the actual acquisition. I remember you told me that the Dept. Indian Affairs [illegible] about him to expedite the acquisition, to explain the cause of the delay & at any rate to get possession of the lands surveyed and don't allow any cultivation or measuring to proceed cultivation. This last is important.

Sir,

In reply to your docket × Subd 6 Jany 1899
N ÷ 1069 / R.F. 166-93 of the 12th May 1898, regarding the acquisition of the lands within the catchment area of the tank at Hesseraghatta, I beg to state that, as soon as orders were received, at the end of August last, to acquire these lands, the First Assistant Commissioner of the District was requested × to proceed to do the needful. He has been doing his best and what has up to now been done, has already been reported. A very large area has to be acquired and a very large number

× when? & where which order have given by

× a proposal for his proceeding wanted

for submission to the Legislature.

An early reply is requested.

Yours Very Sincerely

B. A. Trimble Esquire, Esq.

Dy Comm'r Emigration D.C.

Commissioner's office

Bangalore 26th May 1898

No. 927.

(324)

To,

The Deputy Commissioner

Bangalore District

Sir,

With reference to your No 1626 dated 19th May 1898 calling for a detailed statement shewing the action taken on Government Proceedings No 2874-76 Mis 480 dated 27th August 1897 regarding the acquisition of lands within the catchment area of the Hessargatta Channapajendra reservoir, I have the honour to state that the Government order quoted above was communicated to Hr. Narasimmiyanpar in yadi No 120 dated 1st September 1897 with directions to acquire additional lands and settle the compensation amount therefor. On receipt of the above instructions order was

issued to the Amildar of the God-
ballapur Taluk (395) 359 on 4th
September 1897 to send the necessary
statement shewing the amount of
compensation payable to the owners
of lands.

Again a reminder was issued
to the Amildar on 21st October
1897 to expedite the transmission
of the statement called for.

Before the receipt of the
orders to acquire the lands of the
4 villages in question the villagers
had ploughed up and sown their
lands. Consequently the matter
had to be postponed for a short
time as otherwise the villagers
would be clamouring for the loss
besides claiming large amount
of compensation

Shortly after on the 13th
December 1897 Mr. Narasimmiya par
paid a visit to the place and
urged the villagers to be in-
-ness to shift themselves

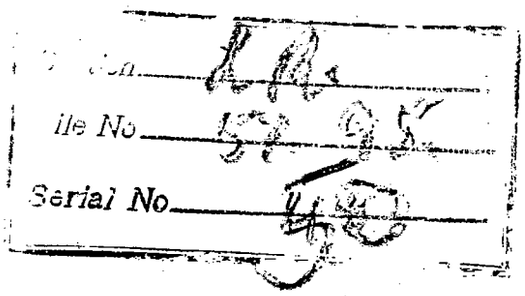
rowed & arranging that all
cultivation is to cease on, &
compensation to be paid for, all
lands in the catchment
required by Government
I will try & get hold of
the village maps & check
this. & am told that all the
villagers from these places
will have gone in a fortnight's
time.

I found the remains of
old Yedihalli to day among
some trees. In my official
I said I ~~could~~ had not seen
it. The conservancy Lapt

fields have been ploughed, but on the East side of Neeseraghalla tank only a very small amount of ploughing has been done except in Veerahandapura, the village to East of the bund, which has a few fields (say 25 acres, if what was pointed out to me is all) on the catchment.

I met the Conservancy Superintendent, & he told me that the Assistant Commissioner & the Mudaliar are now going

11.0.48



Dear Sir,

I have again received an urgent letter from the Resident in the Land in the Settlement of the Nagarajahs province. As such to know what matter really and what progress has been made (1) in the acquisition of the land and (2) in preventing mining and cultivation. Shall feel much obliged if you will kindly ask Mr Narasimmayar to see me this evening and give me all necessary information

Yours very truly

Sd. C. Sreenivasagam

To B.K. Venkateswaragam Esq

Dy Commissr

Before he could finally come
(391)
to some terms by private negotiation
he had to run down to Bangalore
on the 13th inst. March to see the
Deputy Commissioner who had
asked to meet him in connection
with the acquisition of lands
for the Artillery Practice Camp
which takes place annually
at Visvanathpur.

He joined his camp at
Rajaghatta on the 14th inst. and
finished the Jamabandi of
the 5 hobblis by the 26th March
with a view to facilitate the
collection work as strict orders
had been received as regards
collection. He returned to Bangalore
on the 27th idem.

On referring to the court
diary I find that his harassing duties
had hardly time to stir out

of Bangalore till the 12th of 366
April on account of criminal
work. (33)

On the 13th afternoon he
assumed charge of the office
of the Deputy Commissioner
and was in charge of the
district office for 15 days
viz upto 28th April 1898.

Lastly he proceeded
to Hallol on the 6th May 1898
to push on with the work of
acquiring the lands of the 4
villages under reference and
to settle the amount of com-
pensation.

He however succeeded
in obtaining untold sums
from some of the villagers
by private negotiation which
amounted to Rs 8000/-. He had
also arranged to put a stop

of holdings have to be brought round. They do not easily agree to our proposals and have to be quietly convinced of the reasonableness of our terms, or exorbitant sums will have to be paid. They have also to give up the houses and lands that have been in their possession from the time of their forefathers and remove them = selves, beg and baggage, notwith = standing that they have in some instances women in delicate health to be removed. Further, all the legal formalities have to be gone through. Notwithstanding all these impediments, I am of humble opinion that good progress has been made. The work is very near completion. At the present moment two officers are at the work.

Section 6. 12.
File No 4 Ex. 35
Roll 1 No 5 D

Sir,

I am directed to acknowledge the receipt of your letter No. 4528 Dated 2nd instant and in reply to state as follows:

2. The matter has been taken up with the Local authorities in carrying out the main object of the Scheme in August last, in regard the early acquisition of the lands belonging to the Villages of Gandhali, Bhikhabhai-pur, Gadisali and Hasnalli in the extension of the Bhimrajpura Reservoir.

3. In pursuance of many strict instructions since issued, intimation has just been received from the Assistant Commissioner in charge, that the rent of the 4 Villages named above have been vacated, that the materials

materials thereof and the same be-
longing to the said Scott are being removed
and that all the lands, the acquisition
of which is sought to be effected, have been taken possession of and
put of cultivation. The necessary in-
structions regarding the levelling of
the pits and lowering or removal of
embankments have also been issued and
are receiving immediate attention.
4. The Courts understand that the
said 4 murders were committed
in the year 1905, but that some of
the Scott thereof erected temporary
huts on higher ground in the Extension.
It is these huts that have now been removed.
5. Miscellaneous claims have not
at all been acquired, but only parts
of them were taken up as could be
required to exchange for the Govt.
lands in the neighbourhood. The
probable

possible cost of acquiring the title deeds is likely to be heavy. Surveyors Byelaws Maps &c are very large village expenditure of money and of the extensive lands attached thereto, will be a special duty necessary. All this was proved under the Scheme was first undertaken, but the Board after due consideration deemed the conclusion that the existence of these powers of Examination would not remove the supply enquiries for the present, requirements of the City population the Board are still of opinion that it would be undesirable on financial grounds to undertake to buy out all the lands and houses in question. They are accordingly causing investigation to be made as to the best ways of acquiring of the sewerage of the house of the three villages above named without Money of the market

into the Lieutenant Governor's Office

I have &c

May 1898

To The Secretary to the
Government of Mysore
Revenue and Forest
Department

Sir,

As required in Government order No. 10951 of the 18th May 1898, I have the honour to submit herewith a copy of letter No. 2 of the 24th May 1898 from the Assistant Commissioner of this District explaining the alleged cattle disease and the steps taken for acquiring the lands in the Cultivated area of the Channagiri and Chennagiri Tanks.

I have the honour to be,

Sir,

Your most obedient servant

Deputy Commissioner

to any place elsewhere beyond the catchment area the Learned day the Police of Darwin-Cullen Lauch brought a case of murder which necessitated him to go back to Adelaide. He was granted for 3 days in enquiring into the case.

While he was about to resume the work of Settling compensation payable for the lands, the Chairlady of Local Authority represented that he had to go on other urgent duty which required (Eight days) five days. Thus it will be seen that the matter had to be adjourned in the interest of Government for 5 days.

During the said 5 days the Magistrate gave finished the Journalism of the out of

holders of the Kodikanal Taluk
for service, especially the Kadai
holdi which the villages in
question belong for settlement
some after the Surveyor returns
with a view to fix the compensation
amount and also to provide the
villagers with lands available in
unoccupied places in this and
in the neighbouring Taluks in
consultation with the Surveyor.

Soon after the hilitary
Camp operations commenced
and by a proclamation, pro-
ceeded to disarm the
civil officers. On 3rd Decem
ber 1897. The operations commenced
from the 4th and continued till
the 18th January 1898. On the
14th he accompanied the batteries
on their way to Bangalore. On
the 19th he returned to Coonta
Station for settling the jama-
bandi of the Periakulli Taluk

of Compensation till the 1st of
April next account of ordinance
work.

Ordered by the Commissioners that
assume charge of the office
of the Assistant Commissioner
and was in charge of the
District Office for 5 days
viz: from 28th April 5-8

Laxtey he proceeded
to Nairobi on the 1st May, 28
to receive his work of
acquiring the lands of the
villages under reference and
to settle the amount of Com-
pensation.

He hereby proceeded
to obtaining valuation
from some of the villagers
by private negotiation which
amounted to Rs 2000/- he has
also arranged to put a fence

to cultivation of the lands and
carting manure &c.

On the 9th instant the left
Kadur for Bangalore to see the
Deputy Commissioner in con-
nection with his transfer to Tiptur
and returned to Kadur on the
10th idem.

On the 11th morning he
handed over charge of the
office to me at Kadur and
returned to Bangalore. As the
war again delayed to harden
till the work of clearing the
villages we came back to Kadur
and settled me in the matter. He
had also wired to the Secretary to the
Government of India Forest General and
Revenue Department stating that
the villages were cleared and the
materials were being removed.
This had also been intimated to
you, vide this office dis. No. 205

Bangalore District
Dy. Commissioner's Office
Bangalore. 18th July. 1899.

To

The Secretary to the
Government of Mysore
Genl & Rev: Depttt.

Sir,

Adverting to para 2 of Govt. Proceedings No. 7768-9 / R7166-93 dated the 28th April 1899, regarding adjustment of the compensation amount sanctioned for the acquisition of lands for the drainage area of the Chamarajendra Reservoir, I have the honor to submit herewith, two statements containing particulars of Cheques issued during the months of March and April 1899. When the amounts of these statements viz, Rs 3768-2-0 and Rs 2080-1-0 are adjusted, the total amount adjusted will be Rs 22975-6-0, leaving an unadjusted balance of Rs 35024-10-0, for which statements will be submitted, in due course.

I have the honor to be
Sir
Your most obedient servant

Dy. Commissioner,
Bangalore District.

be disposed of as early as possible.

I have the honor to be
Sir
Your most obedient servant

W M Hammersley

Dy. Commissioner,
Bangalore District.

Mrs

Survey No. 26 of the Kunnavakalli Village

of the Nelamangala Taluk have been selected

as Service Inam

to be given to the parties concerned, the

extent of Service inam lands taken up being

27 Guntas, an equal extent, or as much

as bears an equal assessment, out of

the Survey No. now selected, will have

to be subdivided, and given over to the Village

Servants. The subdivision of less than

three acres of dry land, in this instance

will have to be treated as a Special Case.

If the Government sees no objection, the

Superintendent, Revenue Survey, might be

kindly requested to assess the same

with a view to subdivide the land in

question. As the land (Survey No. 26) is

badly cut up and unfit for Cultivation in

its present Condition, it is proposed to

grant an amount of Rs 27 as Compensation

for

for the improvement of the land. 417

2. A revised Statement in the form prescribed in the Civil Assessment Code for the fresh assessment of Rs 712 2 4, is herein enclosed. (384)

3. As to the disposal of Rs 65-11-7, being Compensation for damage to crops while removing the Hebbal Main, referred to in the 2nd para of your docket under reference, it may be observed that the whole amount has been disbursed to the parties concerned.

4. It will thus be seen that there is no unutilized balance out of Rs 787-11-7 received from the Residency.

I have the honor to be
Sir
Your most obedient servant

Dy. Commissioner,
Bangalore District.
